## Google Summer of Code project proposal 2024 - OSIPi

### Contact details

- Full name:
- Country:
- Time zone:
- Email:
- Github ID:
- Personal blog (optional):
- Twitter/LinkedIn/others:

### GSOC information

- Have you participated in the Google Summer of Code previously? Please describe your experience.
- Are you applying to any other organizations this year? If so, please list them.
- How many hours will you devote to your GSoC project each week? Do you have any other commitments during the summer?
- Did you contribute to OSIPi during the application period?
- Do you plan on contributing to the OSIPi project after GSoC is finished?
- What skills or knowledge do you think you are missing before you are able to participate in OSIPi and how will you deal with this (it is ok to not know everything up front!)?

### Project idea

Repeat this section for as many project ideas as you want (Go in the order most likely to least likely).

- Title of the idea that you are interested in
- Brief description of the idea.
- Have you worked on a similar project in the past? If yes, please provide a brief description (with links if possible)
  - Have you examples of previous GitHub or Python contributions? Optionally for TF2.2 projects, Matlab
  - How are your previous experiences useful in your contribution to OSIPi?

- How will your project benefit OSIPi?
- Project plan (max 750 words)
  - Describe how you are planning to approach the project
  - Propose a timeline, including milestones and deliverables
  - Include time for investigation, coding and documentation
